

Bv-5000 Series

A functional stable hull designed for use in estuary, inshore and partially smooth offshore conditions. This hull provides the perfect platform for custom configuring your ideal topsides layout.

- Built tough using 5083 4mm plate all round (optional 5mm),
- Sizes ranging from 5.2m – 5.8m.
- Featuring a 15 degree dead rise with large return chines, sealed aluminium floor, side decks, solid gunwale extrusion & positive foam floatation.
- Available in multiple layouts
